These 3 models are meant to be the entry into the field of professional vacuum packaging with chamber machines.

Suitable for several sectors of employment, these three models are easily recognizable for their top quality structure, their extremely high work capacity and, above all, for their amazing and extremely advantageous price level.

They have an accurate but simple electronic device. They can work with different kinds of vacuum bags, make vacuum in external recipients and even in embossed bags by external suction. Totally stainless steel built and equipped with printed vacuum chambers and totally removable sealing bars, these three models can offer their amazing services at the best price ever on the market.

Rappresentano la linea d'ingresso al mondo professionale del confezionamento a campana. Ideali per svariati settori d'applicazione si caratterizzano in particolare per l'ottima qualità costruttiva, le elevate prestazioni e per un posizionamento economico di mercato estremamente vantaggioso . Dotate di un'elettronica di precisione ma nello stesso tempo di semplice utilizzo, sono in grado di operare con sacchetti di svariate tipologie, in contenitori esterni e addirittura in aspirazione esterna a mezzo buste goffrate. Totalmente in acciaio inox, dotate di vasche stondate e prive di saldature interne con barre soldanti estraibili di serie sono in grado di garantire alla piccola-media azienda super prestazioni al miglior prezzo di mercato in assoluto.
